Dear Mr. Swaitek:

My many thanks for all of your help on my patent application number 10/710,996. I am also thankful for your comments about my patent and what I could do to make it better. I have tried my best to do what you asked in your letter and I hope that you find it acceptable. Thank you for remaining patient with me as I learn what's involved in working with a patent application.

I will call you soon to discuss my application and I'm looking forward to talking with you again. I will be happy to comply with any additional suggestions you have to offer about my patent. I am glad that you are being such a big help and I will be happy to go along with any suggestions you may have in the future.
